The heifers will be penned as groups to be viewed ahead of our Private Treaty Auction. We will conduct the sale in the same manner as when we sold the heifers as calves, but now they will be sold as bred heifers, selling in groups of two or three. Prices start at \$2,200.

The bulls were turned out on May 10, 2023, and ultrasound pregnancy tested in August 14 and 15. A lot of the heifers are bred to calve in February. We are ultrasounding again in September so some may be due to calve in April and May. A supplement will be available at the sale. An ultrasound picture of the calf in utero is provided for each heifer.

All heifers bred to calving-ease Red Angus bulls from Beckton Red Angus and Cross Diamond Cattle Co.

*New Sire

We hand picked the natural service bulls and we are very critical in what we purchase. Their EPDs are consistent throughout and they are calving-ease bulls not just light birthweight. Most of these bulls were used in our herd and then moved into the Leave 'Em program as we introduced new sires. Their cost was from \$8,000 to \$17,000.
