

50 Years Strong – Your Partner in Success!

For half a century, Loonan Stock Farm has been more than a source of quality bulls – we’ve been a partner in your success. Our legacy is built on the loyalty of customers who year after year raise profitable, high-performing cattle. It’s your trust and dedication that have made this five-decade milestone possible.

At Loonan Stock Farm, we specialize in breeding low-birthweight bulls that grow fast and calve easily. Our Red

Angus, Simmental and hybrid bulls bring the benefits of heterosis, delivering extra growth and vigor to your calves. With carefully selected genetics, we ensure your calves weigh up at weaning, excel in the feedlot, and yield top carcass quality.

As we celebrate our 50th Anniversary Bull Sale on Feb. 1, we remain committed to providing the reliable genetics you’ve come to expect.

We are Proud of our Winners! 2024 Lee County Fair Carcass Contest Results

We are so proud of what Ron and his grandsons have done with our genetics. For 31 years, Ron has been coming to us to purchase his bulls and he has an outstanding set of cows that can be seen when driving on Highway 218. Ron has used our Red Angus, Simmental and hybrid bulls and producing outstanding calves every year. What Ron has done with our genetics is what we have strived for the last 50 years.

Thank you, Ron, Parker and Mason!

Feeder Calf Certification Program & Allied Access Enrollment

Red Angus Marketing Programs have been delivering results for over two decades, combining the value of superior genetics with access to export markets and premium product lines, while allowing Red Angus customers to build strong reputations.

The Feeder Calf Certification Program (FCCP) was the industry's original USDA Process Verified Genetic, Source and Age Verification program.

Allied Access (AA) provides solutions for crossbreeding programs by delivering source & age verification, without the genetic restriction. AA delivers the flexibility for Red Angus customers using multi-breed rotations, hybrids or composites to capture heterosis.

Enroll in the Red Angus Value-Added Programs and order your tags today!

Selling 100 Bulls

Bulls priced from

\$3,800, \$4,000 and \$4,200

Greetings from Loonan Stock Farm

Judy

Hello Friends,

We hope this letter finds you and your herds thriving as we head into another exciting season in the cattle business. For us at Loonan Stock Farm, this year is especially meaningful as we celebrate 50 years of providing genetics built for the commercial cattle producer. From that very first sale in 1975, when our bulls averaged \$368, to today, one thing has remained constant: our focus on breeding cattle that work for the commercial man, not the purebred breeder.

As we look back on the past five decades, we are proud of the progress we've made – offering Red Angus, Simmental, and hybrid bulls designed to calve easily, grow fast, and deliver high carcass value. At the same time, our core principles haven't changed. We believe in consistent genetics that perform. That's why Rick spends countless hours studying EPDs, DNA, and pedigrees to ensure every bull meets the needs of your operation.

Rick

We know your success depends on cattle that minimize problems and maximize profits. That's why we don't rely on light birthweights alone to define calving ease. Instead, we evaluate CED and BW EPDs for true consistency. Our weaning weights are taken off the cow without creep feed to reflect real-world performance, and our bulls are developed on high-roughage rations to ensure they stay sound and ready to work.

As we prepare for our **50th Annual Bull Sale on February 1**, we want to thank you for your loyalty and trust. Customers like those who've been with us since 1975 inspire us to keep pushing forward. We're excited to introduce you to this year's lineup, including progeny from new herd sires that combine top performance and strong carcass traits.

We look forward to seeing you on February 1 and continuing to be your partner in success.

Judy & Rick
